Payment Groups App User Guide

- App Version: 1.0
- Our Support Email: support@webecommercepros.com

Thank you for using the Payment Groups BigCommerce App. If you have any queries with this App, please feel free to contact us: support@webecommercepros.com

Below you will find the detailed documentation:

Step 1: App Installation

To install the Payment Groups app all you have to do is go to the [BigCommerce App Store](#).

Step 2: Requirments

Requirements that must be full filled before using our app are :

- It works with stencil themes.
- It works with Optimized one-page checkout (Recommended).

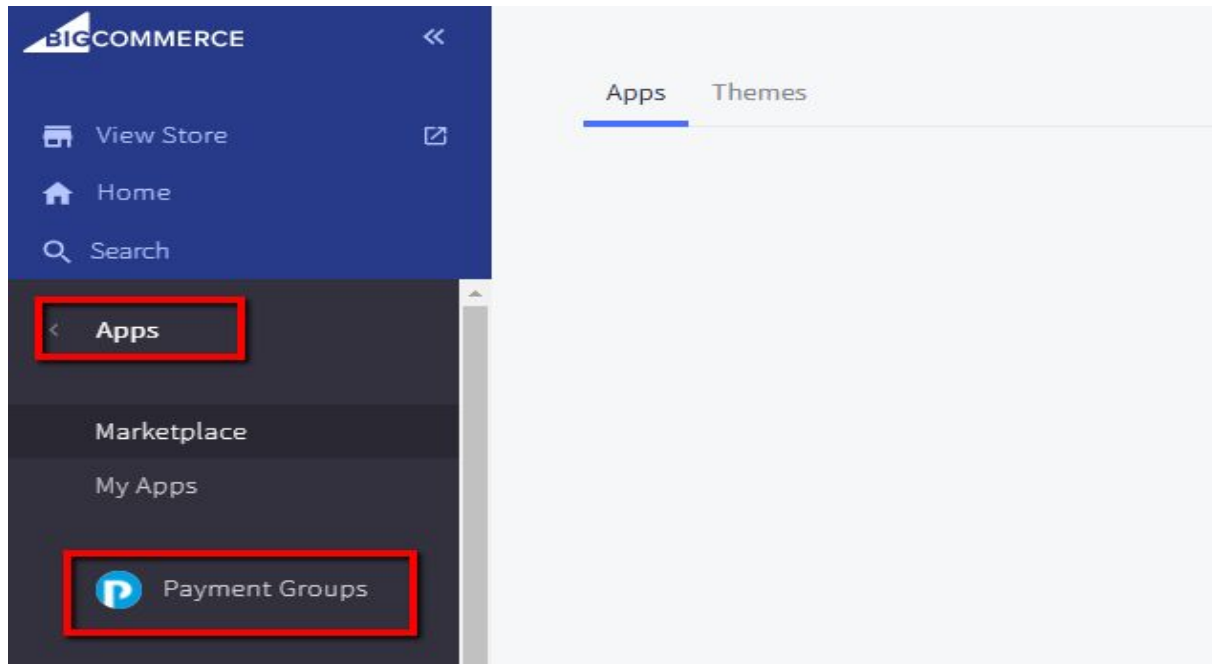

Step 3: How to Use

In the Payment Groups App, the total customer groups on the store are displayed. By selecting the customer group the enabled payment methods of the store are displayed. You are allowed to set different payment methods for the selected customer group. Also, you can rename the payment methods for the app. For example, you enabled the payment method (**money order**) and changed the display name to **Net 30**. Now, you can also rename the payment method

(money order) to **Net 30** in the app to avoid conflict. If you find any issue please contact us at support email.

Step 4: How to Use Examples

- Go to Apps > Payment Groups

- App main settings:

Payment Groups

[Rename Payment Methods](#)

[Contact Support](#)

Select a group from the drop down below and then select the payment options you would like to offer!

Default/Guest

Please Choose the payment methods you want to provide to the selected customer group:

- ☒ Cash on Delivery
- ☒ PayTabs
- ☒ Test Payment Gateway

Save

- Click here to rename the payment methods.
